

THE OHIO STATE UNIVERSITY

SYLLABUS:

STAT 1350.01 – ELEMENTARY STATISTICS

AUTUMN 2022

Course overview

Instructors

Dr. Michelle Everson (Course Coordinator)

Email address: everson.50@osu.edu

Office: 415 Cockins Hall

Office hours: Tuesday and Thursday 11 a.m.-12 p.m. (in 415 Cockins Hall), Wednesday 2:30-4 p.m. (via Zoom), and by appointment

Rejuan Haque

Email address: haque.62@osu.edu

Office hours: Monday and Thursday 9-10 a.m. (via Zoom), and by appointment

Dr. Nicole Kelbick

Email address: kelbick.1@osu.edu

Office: 212C Cockins Hall

Office hours: Wednesday 12-1 p.m. and 3:15-4:15 p.m., and by appointment

See the **Syllabus & Other Stuff** section of the Carmen course site for more details about instructor office hours and relevant Zoom links.

Teaching Assistants

Seth Adarkwah Yiadom (adarkwahyiadom.2@osu.edu), Yejin Choi (choi.1577@osu.edu), Stephen Dignan (dignan.2@osu.edu), Anna Halldorsdottir (halldorsdottir.4@osu.edu), and Patrick McHugh (mchugh.118@osu.edu)

MSLC Tutoring: Free online and in-person drop-in tutoring from our teaching assistants will be available through the Mathematics and Statistics Learning Center (MSLC). Tutoring will officially begin at the start of Week 2 of the semester; details about when tutoring will be available for STAT 1350 can be found on our Carmen site (see the link on the **Syllabus & Other Stuff** page).

Course description

STAT 1350 is a 3-credit statistical literacy course designed to help you become thoughtful and critical consumers of statistics in everyday life. You will learn in this course about how data is produced, organized, and summarized. You will also learn about how samples of data can be used to make inferences about populations.

General education goals and expected learning outcomes

This course satisfies the General Education foundation requirement in *Mathematical and Quantitative Reasoning or Data Analysis* which has the following goals and expected learning outcomes:

Goals: Successful students will be able to apply quantitative or logical reasoning and/or mathematical/ statistical methods to understand and solve problems and will be able to communicate their results.

Expected Learning Outcomes (ELOs): Successful students are able to:

- 1.1 Use logical, mathematical and/or statistical concepts and methods to represent real-world situations.
- 1.2 Use diverse logical, mathematical and/or statistical approaches, technologies and tools to communicate about data symbolically, visually, numerically and verbally.
- 1.3 Draw appropriate inferences from data based on quantitative analysis and/or logical reasoning.
- 1.4 Make and evaluate important assumptions in estimation, modeling, logical argumentation and/or data analysis.
- 1.5 Evaluate social and ethical implications in mathematical and quantitative reasoning.

This course also satisfies the Legacy General Education requirement in *Data Analysis* which has the following goals and expected learning outcomes:

Goals: Students develop skills in drawing conclusions and critically evaluating results based on data.

Expected Learning Outcomes:

1. Students understand basic concepts of statistics and probability.
2. Students comprehend methods needed to analyze and critically evaluate statistical arguments.
3. Students recognize the importance of statistical ideas.

Course Materials

The required textbook for this course is *Statistics: Concepts and Controversies* (10th edition) by David Moore and William Notz. The textbook will be delivered electronically via CarmenBooks. If you opted in, you will go into our Carmen course site, click on the **Macmillan Higher Education** link on the left side of the page, and then click on the icon that says **Achieve**. If this is your first time using Achieve, you'll be prompted to confirm your name and email address. This will then allow you to log in to our STAT 1350 Achieve site. Using other resources in Achieve is not required this semester, but this is where the electronic version of the "*Statistics: Concepts and Controversies*" textbook is housed. To get to the electronic textbook, hover your mouse over the menu bar on the left side of the Achieve page and then click on the link to the **E-book**. More details about accessing the textbook can be found in Carmen in the **Syllabus & Other Stuff** section, on the **Accessing the Course Textbook** page. CarmenBooks is an Inclusive Access program that offers digital copies of selected textbooks for a fraction of the cost of a new, physical copy. If you register for a course using CarmenBooks, you will see this discounted textbook cost reflected as a course fee. When enrolling in courses in BuckeyeLink, you will see the text "Digital Textbook Fee" under the "Enrollment Information" section. For more information, see: <https://affordablelearning.osu.edu/carmenbooks/students>

A simple calculator (with a square root key) will be necessary for STAT 1350; there is no need to have a graphing calculator for this course.

Course Technologies

Technology support

For help with your password, university email, Carmen, or any other technology issues, questions, or requests, contact the Ohio State IT Service Desk. Standard support hours are available at ocio.osu.edu/help/hours, and support for urgent issues is available 24/7.

- **Self-Service and Chat support:** ocio.osu.edu/help
- **Phone:** 614-688-4357(HELP)
- **Email:** servicedesk@osu.edu
- **TDD:** 614-688-8743

Technology skills needed for this course

- Basic computer and web-browsing skills
- Navigating Carmen (go.osu.edu/canvasstudent)
- CarmenZoom virtual meetings (optional) (go.osu.edu/zoom-meetings)

Required equipment

- Computer: current Mac (MacOs) or PC (Windows 10) with high-speed internet connection
- Webcam: built-in or external webcam, fully installed and tested (only necessary if you wish to meet with us via Zoom)
- Microphone: built-in laptop or tablet mic or external microphone (only necessary if you wish to meet with us via Zoom)
- Other: a mobile device (smartphone or tablet) to use for BuckeyePass authentication

Required software

- Microsoft Office 365: All Ohio State students are now eligible for free Microsoft Office 365. Full instructions for downloading and installation can be found at go.osu.edu/office365help.
- There may be statistical software tools that we will ask you to use for different course assignments, but these will all be freely accessible via websites that we will share with you.
- We strongly encourage you to avoid using Safari as an internet browser because we have found that certain images in assignments and exams do not show up well in Safari. Details can be found at <https://teaching.resources.osu.edu/toolsets/carmencanvas/faqs#item578>. If are able to use Chrome, Firefox, or Microsoft Edge, we hope you will do this.

Carmen access

You will need to use BuckeyePass (buckeyepass.osu.edu) multi-factor authentication to access course resources on Carmen. To ensure that you are able to connect to Carmen at all times, it is recommended that you take the following steps:

- Register multiple devices in case something happens to your primary device. Visit the BuckeyePass - Adding a Device help article for step-by-step instructions (go.osu.edu/add-device).
- Request passcodes to keep as a backup authentication option. When you see the Duo login screen on your computer, click **Enter a Passcode** and then click the **Text me new codes** button that appears. This will text you ten passcodes good for 365 days that can each be used once.
- Download the Duo Mobile application (go.osu.edu/install-duo) to all of your registered devices for the ability to generate one-time codes in the event that you lose cell, data, or Wi-Fi service

If none of these options will meet the needs of your situation, you can contact the IT Service Desk at 614-688-4357(HELP) and IT support staff will work out a solution with you.

How This Course Works

In this course, you will attend lecture twice a week and recitation one time each week. To best prepare for lecture, we strongly encourage you to read through the assigned textbook readings before each lecture since we will clarify and expand upon those readings during lecture. We will share our lecture materials on Carmen (within the **Syllabus & Other Stuff** section), and we hope these materials can serve as a foundation for the notes you will personally take during lecture.

We will use Carmen quite extensively in this course. Go to <https://carmen.osu.edu/#> to log on to Carmen. You should then see a link for the STAT 1350 site. Look carefully at the way the course site is set up. On the homepage of the course site, there are links to the different weeks of the semester, and clicking on those links takes you to a detailed overview that contains information about the learning objectives for the week, links to assignments, and links to lecture materials. *Although several things will be available to you on the course site at the beginning of the semester, not all assignments or lecture materials have been created or posted. We will slowly add to the course site during the semester.* We hope the course site will be relatively easy for you to navigate, but if you are ever in doubt about anything, please let us know!

Based on the recitation section you signed up for, you will be assigned to a particular teaching assistant who will lead your recitation, grade your weekly lab activities, and attempt to help answer questions for you. Your assigned teaching assistant is the first person you should talk to when you have questions or concerns. If that teaching assistant cannot help you, your lecture instructor or the course coordinator (Dr. Everson) will intervene. Your assigned teaching assistant will meet with you during Week 1 for your first recitation of the semester. Note that if you are ever in doubt about who your assigned TA is, go to <https://buckeyelink.osu.edu/> and click on My

Buckeye Link to look up your class schedule; the TA will be listed as the instructor for the recitation portion of STAT 1350. To learn more about your Instructor and teaching assistant, you can visit the **Meet your Instructors** page, found by clicking on the **Syllabus & Other Stuff** button on the course homepage.

It's possible your lecture instructor may choose to use *Top Hat* during lecture as a way of encouraging class participation. *Top Hat* is a system that allows you to answer questions and participate during lecture by using your smartphone, iPad, or laptop. Go to <https://teaching.resources.osu.edu/toolsets/top-hat/guides/getting-started-top-hat-students> in order to learn more about *Top Hat* and to make sure you are registered to begin using it. You can even download a *Top Hat* app to your phone to make it easier for you to use *Top Hat* during class. If you have any difficulties with the registration process, let your instructor know. Your instructor will share the Top Hat join code for your lecture section of STAT 1350.

There will be assignments due weekly in this course. These are described in more detail in the **Grading and Assignments** section of this syllabus and in handouts on the Carmen course website. You will work through some of these assignments each week when you attend recitation. We encourage you to either print out the weekly assignments and bring them with you to recitation, or bring a device with you to recitation—like a laptop or an iPad—that will allow you to work through the assignments electronically during recitation time. **We will not hand out hard copies of assignments during recitation.**

Instructor feedback and response time

Email messages sent to your lecture instructor, your assigned teaching assistant, or to the course coordinator should be responded to within 24 hours on weekdays. Response time on weekends may be more variable depending on instructor availability. Dr. Everson, or one of the teaching assistants, will monitor and reply to messages posted on the discussion boards within 24 hours.

In order to protect your privacy, all course email correspondence *must* be done through a valid OSU name.number or Buckeyemail account, or through the course website (Carmen). It is your responsibility to make sure that any email messages you send to us are received, and you need to carefully read through all correspondence sent to you by your teaching assistant or by the instructor/course coordinator (and make sure this does not end up in your Junk folder!). If you send an email message and get no reply within 48 hours, please send that message again.

Remember that you can call **614-688-4357(HELP)** at any time if you have a technical problem with Carmen.

Grading and Assignments

Grades

Category	Points	Percentage
Lab Activities	120	36%
Homework Assignments	110	33%
Participation	22	7%
Midterm Exam	40	12%
Final Exam	40	12%
Total	332	100%

Assignment information

You can earn up to 332 points in this course by completing the following assignments and assessments.

Lab Activities

There are 13 lab activities that you will complete during the semester, with your lowest lab activity grade being automatically dropped from your final course grade at the end of the semester. You can therefore miss one lab activity and not have it count against your grade. Each lab activity is worth 10 points. Lab activities are meant to provide you with opportunities to apply and extend what you are learning from lecture and assigned textbook readings. These are activities that we hope you will be able to work through each week, with your peers and your assigned teaching assistant, during recitation. **We don't expect you to complete lab activities during recitation, but we will always allow time during recitation for you to get started on lab activities, talk through the activities with your peers, and get immediate assistance from your teaching assistant. You will then submit your final work through Carmen by the end of the week.**

During the weeks in which you have lab activities, links to the activities will be posted within the weekly overview. You can also get to the lab activities by clicking on the **Assignments** link on the left side of the course page. The lab activities will include several questions that will require short answers, and you should always save your work as a Word or PDF file and then submit it through the appropriate link within the weekly module (or by going back to the **Assignments** section). Lab activities are always due on **Fridays by 11:59 p.m.**, with the exception of Lab Activity #11 which will be due on a Sunday (again by 11:59 p.m.). We strongly encourage you to review the

activities before your weekly recitation and to use recitation time to discuss the activities with your peers. Recitation is also a time to get help from your teaching assistant if you are struggling with the content for a given week, to review important ideas, and to learn more about problem-solving strategies. We also hope you will post questions about lab activities (and homework assignments) outside of class time in the appropriate Carmen discussion forums on the course site if you need help. Separate forums will be set up each week for questions related to the content for the week.

Each lab activity will be graded based on effort and correctness. If you make the effort to complete the activity, regardless of your answers, you will get 50% (or 5 points) on the assignment. The remaining 50% (or 5 points) of the grade will be based on a selection of problems that we will grade based on correctness. It is therefore very important that you answer all questions on each activity and ask for help if you need it! The teaching assistants will grade your lab activities, and you can generally expect feedback within 7 days. Prior to sharing individual feedback with you, we will post an answer key for the lab activity on Carmen within one day of the lab activity deadline, in our **Syllabus & Other Stuff** section, so you can get immediate feedback.

Please keep in mind that if you do not get full credit for a lab activity, we will attempt to share information with you about why you lost credit. You can view that information by going back to the **Assignments** section and clicking on the link of the assignment name. We'll either make marks in your assignment document to indicate where you lost credit, or we will leave an assignment comment for you to read with that information. It is up to you to look carefully through any feedback we share with you and ask questions if you have concerns about problems you missed. Further, if you get full credit on a lab activity, this only means that you completed the activity and did well on the questions we selected to grade. You might have missed other, non-graded questions. For this reason, it's extremely important to look through the lab answer keys since questions on homework assignments and exams might be based on non-graded lab activity questions.

Homework Assignments

There are 12 homework assignments that you will complete during the semester, with your lowest homework assignment grade being automatically dropped from your final course grade at the end of the semester. Each homework assignment is worth 10 points. Links to homework assignments can be found within the weekly modules or by going to the **Quizzes** link on the left side of the Carmen course page.

To make sure you stay on top of the material in the course, there are almost WEEKLY homework assignments (beginning Week 1 of the semester). Each homework assignment consists of 10 multiple-choice questions, and we set the assignments up this way to give you practice with the types of questions that will appear on your exams. Each question is worth 1 point, and you will complete these assignments through Carmen by the appropriate deadline. Homework assignments will always be due on **Sundays by 11:59 p.m.** Although the homework assignments are set up using the quiz tool in Carmen, they are not "quizzes" in the traditional sense. You can

have as much time as you need to complete homework assignments before the deadline, and you can use your textbook and lecture notes, but once you officially submit your work to be graded, you cannot change any of your answers, and you get just one attempt to work on each homework assignment. Once the deadline has passed, the assignment will be automatically graded, and you will receive feedback. Please refer to the document “**Completing Homework Assignments and Reviewing Feedback**” in the **Syllabus & Other Stuff** section of the course website for details on how you can see feedback on your homework assignments. If you do not attempt to complete a homework assignment at all, you **will not** have any access to assignment feedback or to the correct answers for each homework question, so it’s to your advantage to at least try to work through each assignment and not completely skip any assignment.

Links to Word and PDF copies of each homework assignment can be found within the weekly overviews, within the **Syllabus & Other Stuff** section, or by clicking on the assignment link in the **Quizzes** area, just in case you’d like to print out the assignment and make note of your answers before officially submitting your work through the quiz tool.

Participation

We feel recitation attendance is critical, and we want to reward you for making the effort to attend recitation. We will take attendance during recitation, and this will comprise your participation grade. You will receive two points toward your participation grade for each recitation you attend this semester. To receive these points, you must be present for the full recitation (i.e., you cannot leave early or show up several minutes late). Your teaching assistant will keep track of your recitation attendance and update the grade book each week to reflect your attendance. You should plan to attend all recitations this semester, including the recitation that will take place during Week 1. There will be 13 recitations that you will be expected to attend this semester. We allow two recitation absences to be dropped from your grade without question and will therefore count only 11 attended recitations toward your participation grade. There will be no recitations during Weeks 8 and 14, and the recitation during Week 16 will be optional for those who want more time to review for the final exam.

Midterm and Final Exams

This course has one online midterm exam and a non-comprehensive (or non-cumulative) online final exam. Each exam is worth 40 points, and each exam will consist of 20 multiple-choice questions (worth 2 points each). You will have a certain window of time in which to access the exams through Carmen. These exams are NOT proctored. Please make note of the dates of the exams (see below) so that you can plan to set time aside during these dates to complete the exams. If you cannot be available at these times for unavoidable reasons, you must speak with Dr. Everson at least two weeks prior to the time in which the exam becomes available in order to discuss this and to make arrangements to complete a make-up exam. **If you fail to take an exam during the time when it is available without any communication with us to explain, we will not allow you to make up the exam unless there is an emergency situation that you can document.**

Midterm Exam: The midterm exam will cover Chapters 1 through 6 and Chapters 10 through 13. It will become available at **6 p.m. on Tuesday, October 11th**, and you will need to submit the answers to your exam no later than **Wednesday, October 12th, by 11:59 p.m.** Once you open your exam, please note you have to finish the exam in one sitting, and you will have 90 minutes to work on the exam once it is opened. Thus, **you should not start the exam until you know you will have some uninterrupted work time, and you want to make sure to start the exam well before the deadline so you can get your full 90 minutes if you think you might need that amount of time.** We take academic honesty very seriously in this course and it is expected that you work on the exam by yourself and that you do not discuss the exam with your peers until after grades and feedback have been released to everyone. You can use any notes you want as you are working on the exam, along with your textbook, but you cannot consult with other people during the exam.

Final Exam: The final exam will cover Chapters 14, 15, 17, 18, 21, 22, and 23. It will be structured much like the Midterm Exam. It will become available to you at **12 a.m.** (very early in the morning) on **Friday, December 9th**, and you will have until **11:59 p.m. on Monday, December 12th**, to submit the answers to your exam. Again, it is expected that you work independently on the Final Exam and that you complete the exam in one sitting, within 90 minutes of opening the exam.

Late assignments and grade disputes

Keep in mind that we drop your lowest lab activity grade AND your lowest homework assignment grade. Thus, the first time you miss a lab activity or a homework assignment, we will consider those missed assignments to be your lowest grades, and we will not allow you to make up these assignments. We will also not allow any recitation absences to be made up unless there is an extreme and documented reason for missing recitation. If there are reasons why you cannot attend recitation regularly or must leave early/arrive late on regular basis, you need to talk with Dr. Everson about this as soon as possible. If you have to miss subsequent work beyond the lab and homework assignments that are automatically dropped from your grade, contact Dr. Everson as soon as possible (and no later than one week after missing the assignment) to discuss possible ways to make up this missed work.

If you feel that an assignment has been graded incorrectly or unfairly, you must speak with your assigned teaching assistant or Dr. Everson, within one week of getting your grade on that assignment. For this reason, it's extremely important that you pay careful attention to your grades on a regular basis. **We will not re-grade assignments at the end of the semester or offer any extra credit if you are not satisfied at that time with your final course grade, especially since you will have known all semester what is expected of you to earn your desired grade in this course.**

Grading scale

Final grades in the course will be determined based on the following scale, and based on the percentage of total points that you earn during the semester. We do not curve grades in STAT 1350.

Grade	A	A-	B+	B	B-	C+	C	C-	D+	D	E
Min %	93	90	87	83	80	77	73	70	67	60	0

Attendance, participation, and discussions

The following is a summary of everyone's expected participation in STAT 1350:

- **Lecture attendance:**
We do not require that you attend lecture, but we feel lecture attendance is extremely important. Much of what we go over and clarify during lecture is meant to help you tackle your assignments each week and prepare you for exams. If you have to miss a lecture, it is up to you to obtain notes from a classmate.
- **Recitation attendance:**
As noted earlier in the syllabus, in the **Assignment information** section, part of your course grade is based on participation, and your participation credit will be based on attending recitation.
- **Office hours:**
Attending office hours or getting help through the MSLC is optional but highly recommended if you need extra assistance.
- **Participating in discussion forums:**
There will be discussion forums set up for each week and for other general course questions. Posting questions and/or responding to questions posted by your peers is strongly encouraged, but it is not required. Because we want to maintain a supportive learning community where everyone feels safe and where people can disagree amicably, please be respectful of your peers and instructors in all communications.

Other course policies

Academic integrity policy

The term “academic misconduct” includes all forms of student academic misconduct wherever committed; illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. It is the responsibility of the Committee on Academic

Misconduct (COAM) to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. Instructors shall report all instances of alleged academic misconduct to the committee (Faculty Rule 3335-5-487). For additional information, see the Code of Student Conduct <http://studentlife.osu.edu/csc/>.

We take academic misconduct very seriously in STAT 1350. If you are suspected of behaving dishonestly during an exam (e.g., working with other students during the exam, allowing another student to copy your exam answers or copying answers from another student, sharing exam answers with peers, enlisting someone else to take exams for you) or when completing any other required course assignment (such as by doing another student's work, copying work that was completed by other individuals or other students, or letting another student copy your work), this is grounds for us to file a COAM report, and this may result in a failing grade in this course or an even more severe penalty. It's not worth it to cheat! If you need to earn a particular grade and are struggling, talk to us. We can help. If you have any questions about the above policy or what constitutes academic misconduct in this course, please contact Dr. Everson.

Copyright disclaimer

The materials used in connection with this course may be subject to copyright protection and are only for the use of students officially enrolled in the course for the educational purposes associated with the course. Copyright law must be considered before copying, retaining, or disseminating materials outside of the course.

Student academic services

Student academic services offered on the OSU main campus can be found at <http://advising.osu.edu/welcome.shtml>.

Student support services

Student support services offered on the OSU main campus can be found at <http://ssc.osu.edu>.

Statement on Title IX

Title IX makes it clear that violence and harassment based on sex and gender are Civil Rights offenses subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories (e.g., race). If you or someone you know has been sexually harassed or assaulted, you may find the appropriate resources at <http://titleix.osu.edu> or by contacting the Ohio State Title IX Coordinator at titleix@osu.edu.

Commitment to a diverse and inclusive learning environment

The Ohio State University affirms the importance and value of diversity in the student body. Our programs and curricula reflect our multicultural society and global economy and seek to

provide opportunities for students to learn more about persons who are different from them. We are committed to maintaining a community that recognizes and values the inherent worth and dignity of every person; fosters sensitivity, understanding, and mutual respect among each member of our community; and encourages each individual to strive to reach his or her own potential. Discrimination against any individual based upon protected status, which is defined as age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status, is prohibited.

Health and safety

For the latest information about COVID-19 as well as guidance for students, faculty and staff, please see <https://safeandhealthy.osu.edu/>.

Accessibility accommodations for students with disabilities

The university strives to make all learning experiences as accessible as possible. In light of the current pandemic, students seeking to request COVID-related accommodations may do so through the university's request process, managed by Student Life Disability Services. If you anticipate or experience academic barriers based on your disability (including mental health, chronic, or temporary medical conditions), please let Dr. Everson know immediately so that we can privately discuss options. To establish reasonable accommodations, we may request that you register with Student Life Disability Services. After registration, make arrangements with Dr. Everson as soon as possible to discuss your accommodations so that they may be implemented in a timely fashion. SLDS contact information: slds@osu.edu; 614-292-3307; <http://slds.osu.edu>; 098 Baker Hall, 113 W. 12th Avenue.

Accessibility of course technology

This course requires use of CarmenCanvas (Ohio State's learning management system). If you need additional services to use this technology, please request accommodations with your instructor.

- [Canvas accessibility \(go.osu.edu/canvas-accessibility\)](https://go.osu.edu/canvas-accessibility)

Your mental health

As a student you may experience a range of issues that can cause barriers to learning, such as strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating and/or lack of motivation. These mental health concerns or stressful events may lead to diminished academic performance or reduce a student's ability to participate in daily activities. The Ohio State University offers services to assist you with addressing these and other concerns you may be experiencing. If you or someone you know are suffering from any of the aforementioned conditions, you can learn more about the broad range of confidential mental health services available on campus via the Office of Student Life's Counseling and Consultation Service (CCS) by visiting ccs.osu.edu or calling 614- 292-5766. CCS is located on the 4th Floor of the Younkin Success Center and 10th Floor of Lincoln Tower. You can reach an on-call counselor when CCS is closed at 614-292-5766 and 24 hour emergency help is also available through the 24/7 National Suicide Prevention Hotline at 1-800-273- TALK or at suicidepreventionlifeline.org

Land Acknowledgement

We would like to acknowledge the land that The Ohio State University occupies is the ancestral and contemporary territory of the Shawnee, Potawatomi, Delaware, Miami, Peoria, Seneca, Wyandotte, Ojibwe and Cherokee peoples. Specifically, the university resides on land ceded in the 1795 Treaty of Greeneville and the forced removal of tribes through the Indian Removal Act of 1830. I/We want to honor the resiliency of these tribal nations and recognize the historical contexts that has and continues to affect the Indigenous peoples of this land.

More information on OSU's land acknowledgement can be found here:

<https://mcc.osu.edu/about-us/land-acknowledgement>

Disclaimer

This syllabus should be taken as a fairly reliable guide for the course content. However, we reserve the right to change due dates or the methods of grading and/or assessment if necessary. Any changes will be communicated to you through official course announcements.

Course schedule

Week	Dates	Topics and Readings	Assignments (All due at 11:59 p.m. EST)
1	8/22-8/28	Data/Samples (Chapters 1 & 2)	Lab #1/Homework #1
2	8/29-9/4	Sampling/Surveys (Chapters 3 & 4)	Lab #2 /Homework #2
3	9/5-9/11	Experiments (Chapters 5 & 6)	Lab #3/Homework #3
4	9/12-9/18	Ethics/Graphs (Chapters 7 & 10)	Lab #4/Homework #4
5	9/19-9/25	Summarizing Quantitative Data (Chapters 11 & 12)	Lab #5/Homework #5
6	9/26-10/2	Summarizing Quantitative Data (Chapter 12)/Normal Distributions (Chapter 13)	Lab #6/Homework #6
7	10/3-10/9	More Normal Distributions/Review (if time permits)	Lab #7/Homework #7
8	10/10-10/16	Review/Midterm Exam/Probability (Chapter 17)	Enjoy a break this week!
9	10/17-10/23	Probability/Sampling Distributions (Chapters 17 & 18)	Lab #8/Homework #8
10	10/24-10/30	Confidence Intervals (Chapter 21 up through page 498)	Lab #9/Homework #9
11	10/31-11/6	Confidence Intervals (Chapter 21 up through page 498)	Lab #10/Homework #10
12	11/7-11/13	Hypothesis Testing (Chapter 22 up through page 521)	Lab #11
13	11/14-11/20	Hypothesis Testing (Chapter 23)	Lab #12/Homework #11
14	11/21-11/27	Correlation/Regression (Chapters 14 & 15)	Enjoy a break this week!
15	11/28-12/4	Correlation/Regression (Chapters 14 & 15)	Lab #13/Homework #12
16	12/5-12/11	Review/Final Exam
